

ARROWHEAD ORCHARDS TECHNOLOGY

Medical Plaza 64th Ave. & Union Hills

Cox Business Services is proud to announce fiber-optic voice, Internet, and data service availability to Arrowhead Orchards. Your medical practice may choose from digital communication solutions designed to increase business efficiency while providing affordable options for today's tight budgets.

Voice Services

- **Cox Digital Business Lines** – provides you with crystal-clear service, loaded with features (call waiting, call forwarding, call hunting, etc.) to keep your business running smoothly.
- **Cox Voice T-1/PRI** – interconnects your PBX or key system equipment for local, long distance, toll-free, and international calling.
- **Cox Voice Transport Services** – offers your business bandwidth capacity for large, dedicated voice applications, ideal for carrier-grade solutions.
- **Cox Long Distance and Cox Calling Card** – completes your voice service needs.
- **Cox Voice Mail** – supplies a complete menu of features and options, tailoring our product to your specific business needs.

Data & Internet Access Services

- **Cox Optical Internet** – allows for your whole office to be on-line – FAST. Many affordable service levels available.
- **Web Hosting** – affordable solutions for your business web site.
- **Cox Internet T-1** – offers your business greater bandwidth for dedicated Internet access and high-capacity file transport.
- **Cox Virtual Private Network** – provides end-to-end management and allowing your remote workers access to your corporate network from other offices or from home.
- **Cox Transport Services** – offers your business capacity from T-1 to OC-48 for dedicated and bandwidth intensive applications.

Cox Business Services Advantages

- Crystal clear, digital transmissions
